

ENUMERATION ZONES

The prioritization is chosen to be carried out on the level of Enumeration Zones, as defined by the Malawi National Statistics Office (NSO), for their census and survey projects. Boundaries are found here (http://www.masdap.mw/layers/geonode%3Aeas_bnd). This file is chosen over the GVH (Group Village Headss)

Boudries, mainly because it is more specific. On average each GVH in Malawi contains 3 Enumeration Areas. By doing the prioritization on this deepest possible level, we can be more precise.
