

# COMMUNITY SELECTION IN HUMANITARIAN AID

For this project 3 Traditional Authorities (administrative level 3) within 3 Districts (administrative level 2) have already been identified.

Namely the TA's

Mwambo (Zomba district)

Makhwira (Chikwawa district)

Ndamera (Nsanje district).

Within these TAs there has already been a first selection of GVHs (Group Village Heads) to select, but in the project setup it is acknowledged, that this is merely a first suggestion. The prioritization process described here, will serve to fact-check this first suggestion. Possibly (part of) the pre-identified GVHs will end up being project areas, but areas that were not pre-identified (but are within the 3 TAs) can also still be selected.
